

ACADEMIC VOCABULARY

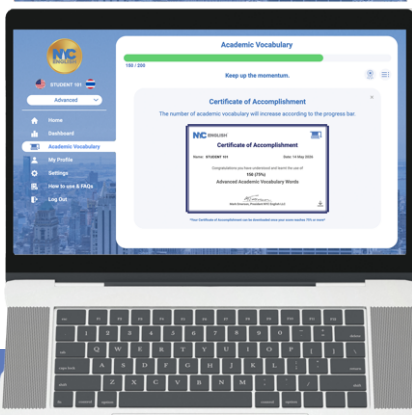

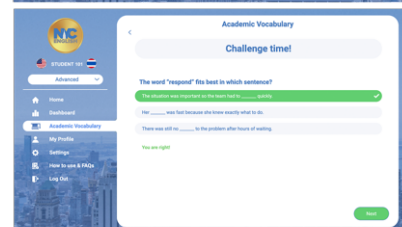

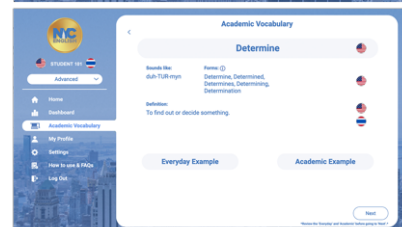

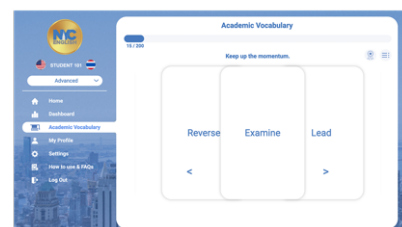

Advanced Level

A carefully curated selection of words commonly used in higher education and professional settings, complete with examples of their usage in different contexts and forms.

This feature focuses on the base form of 200 verbs (present tense, with no additions) and shows how they are adapted for third-person singular, past and continuous tenses, as well as their related noun forms.

This type of vocabulary appears frequently in speech, news, and journals, making it highly versatile for advanced-level English.

Mastering this vocabulary is essential for success in classroom and work settings as well as to strengthen performance in international standardized tests.

Instructions:

Choose any of the 200 verbs from the Academic Vocabulary pool.

For each verb, you will learn its various forms (different tenses and nouns) as well as how it is used in both everyday and more sophisticated academic examples.

Then, complete the quiz for each word correctly by applying the vocabulary you have learned. You can revise vocabulary at any time by accessing the list of previously practiced words.

Once you achieve 75% or higher overall progress, you can download your Certificate of Accomplishment for Advanced Academic Vocabulary words.
